Survey on R&D activities in the field of agrochemicals in companies

Explanation: We want to use this survey of companies to find out which topics and research approaches are of interest to companies. This helps us to identify which topics need further research. Your data will only be used for statistical purposes. The questions about the company are only used to prove that each company has only contributed one answer and will be deleted after submission to Interreg.

I. Questions about the company

I.1. Where is your company located (country and postcode)

I.2. How many employees does your company have?

less than 20 less than 50 less than 250 more than 250

II. Questions about research interests

II.1. How important is sustainability in crop protection for you? Give a number 1-3 (3 very important, 2 somewhat important, 1 rather secondary)

II.2.a Is the development of resistance an issue for you? (3 yes, 2 currently no but possibly in the future, 1 no)

II.2.b If not, why not?

II.3. To what extent do you agree with the following statement? Give a number 1-3 (3 agree completely, 2 agree partly, 1 disagree):

a „The protection of biodiversity has a high priority“

b „Biodiversity is an important source for the development of novel crop protection strategies“

II.4. What topics do you think should be addressed in scientific research projects?

III. Question about the target group

III.1. Who is your company's target group?

- conventional agriculture
- organic agriculture
- both conventional and organic agriculture

Declaration of consent for the research project "DialogProTec - Chemical Dialogue as Protective Technology in Sustainable Plant Protection" at the Botanical Institute of the University of Karlsruhe Institute of Technology (KIT)

General information about the research project "DialogProTec" of the Institute of Botany at the University of Karlsruhe Institute of Technology

The aim of this project is to find signalling substances that plants and fungi use to communicate with each other. Once we know the signals, we want to change this communication for the benefit of people - for sustainable agriculture. In order to make the results of our project fruitful, we need the interest and support of agricultural businesses on the Upper Rhine, especially wine and fruit growing businesses. The aim of our surveys is to find out where there is a need for further research in the field of plant protection.

Procedure of the survey

Please fill in the **declaration of consent** and the **questionnaire** and send both documents either by post

Prof. Dr. Peter Nick
Karlsruher Institut für Technologie
Botanisches Institut
Fritz-Haber-Weg. 4, Gbd. 30.43
76131 Karlsruhe
or email to: peter.nick@kit.edu
or by fax: +49 721 608 44193

The data collected in the questionnaire is used for scientific purposes. The questions about the farm are only used to prove that each farm has participated in the survey only once. This date will be sent to the INTERREG funding body (Managing Authority - INTERREG Programme V A Upper Rhine, Région Grand Est - 1 Place Adrien Zeller BP 91006 F 67070 STRASBOURG Cedex) After submission to INTERREG, this date will be deleted at KIT.

Contact person

If you have any questions, please do not hesitate to contact us:

Prof. Dr. Peter Nick
Karlsruher Institut für Technologie
Botanisches Institut
Fritz-Haber-Weg. 4
76131 Karlsruhe E-Mail: peter.nick@kit.edu, Tel.: +49 721 608 42144, Fax: +49 721 608 44193

Declaration of consent

.....

(Name and first name of the participating person)

Details of the company:

Name of the company:

Postal code and city:

Country:

I have read the general information on the research project "DialogProTec - Chemical Dialogue as Protective Technology in Sustainable Plant Protection" and consent to participation in the research project and the associated data processing, in particular to disclosure by transmitting the name of the company to INTERREG.

I am aware that my consent is voluntary and can be refused without any disadvantages or revoked at any time without giving reasons. I know that in the event of a revocation, the legality of the processing carried out on the basis of the consent up to the time of revocation will not be affected. I understand that I can simply turn to the contact person named in the information to withdraw consent and that there are no disadvantages from refusing consent or withdrawing it.

The information on the collection of personal data in the research project "DialogProTec" was communicated and made available to me.

Date, signature of the participant
