

Institutsseminar Molekulare Zellbiologie und Allgemeine Botanik

Mo, 09:30 – 10:30, Seminarraum 506+507, Gbd. 30.43

Gäste willkommen – Guests welcome

Date	Speaker and Topic
08.01.	Progress in Cellular Biotechnology Yong Ye: <i>Fluorescent Probes for Reactive Oxygen Species</i>
15.01.	Progress in Plant Stress Xuan Liu: <i>PhD rehearsal.</i>
22.01.	Progress in Applied Biodiversity Sascha Wetters: <i>In the Shadow of GLOBOSA – Evolution of DEFICIENS</i>
29.01.	Student Corner Julia Blendl: <i>Heated Mint</i> , Ralph Roßrucker: <i>Conservation Gardening</i>
05.02.	Progress in Social Hygiene <i>Discuss Matters of Institute Organisation and Discipline</i>
12.02.	Progress in Nonsensology <i>Prince Carnival: How I Came to Love Roses</i>
19.02.	Progress in Applied Biotechnology Mahsa Lotfi: <i>Unveiling the Secrets of an Endemic Medicinal Plant from Iran</i>
26.02.	Progress in Plant Stress Nitin Parwan Dhattatraya: <i>Salty Rice Defends Itself.</i>
04.03.	Progress in Cellular Biotechnology Jiang Wu: <i>Unravelling the Secretes of Dual Localisation Kinesin</i> Gwynneth Manfraß: <i>Unveiling the Secrets of Commercial Ginger Products</i>
11.03.	Progress in Photobiology and Algal Biotechnology Lamparter Group
18.03.	Student Corner <i>Reports from Bachelor and Master theses and P-modules</i>
25.03.	Spring Journal Club <i>Critical reading of your finds</i>
01.04.	Progress in Lepatology <i>Peter Rabbit: First Record of Oviposition in Higher Mammals</i>
